

Philips Respironics DreamStation Go CPAP with Humidifier

Philips Respironics DreamStation Go CPAP

The DreamStation Go CPAP from Philips Respironics gives travelers a real-world solution to portable CPAP therapy. Weighing in at a mere 1.86 pounds (less than 1kg), the DreamStation Go Travel CPAP delivers the therapeutic benefits of a full-sized CPAP machine but in a compact, easy-to-transport package with dimensions registering 5.9 x 5.9 x 2.3 inches. The discreet DreamStation Go can power cordless CPAP therapy thanks to its rechargeable lithium-ion battery. So whether you're the jet-setting business type who's constantly on the road, or an outdoor enthusiast looking for a reliable sleep therapy option while roaming off the grid, the DreamStation Go CPAP is the ideal choice for sleep apnea patients on the go.
